

What US-based allocators need to know about European real estate credit

Swipe to discover more

ZENZIC
CAPITAL

Europe, relative to the US,
has a **capital gap in middle
market real estate**, but
private credit will grow
quickly.

Lending to Europe requires
a deep understanding of
local markets, legal
frameworks and cultural
differences.

Zenzic's team has been built to capitalize on this opportunity, benefiting from a middle market focus, technical rigor and local market expertise and relationships.
